

HBQ-Z209 经济型盲堵插入机

HBQ-Z209 ECONOMIC AUTOMATIC INSERTION MACHINE

产品介绍 Introduction

HBQ-Z209 经济型盲堵插入机采用护套手工上料、托盘储料的方式，具备盲堵自动送料、自动插入的功能。操作简单、方便，能够减轻工人穿栓的劳动强度，提高产品品质，提升生产效率。还可以根据客户需求，增加插入工站，在同一护套插入两种不同的盲堵，也可增加不良品检测模组，以满足汽车、电子线束的各种加工需求。

HBQ-Z209 needs the operators load the terminal plugs manually and stores the plugs through a tray mechanism. But the plug feeding and inserting is automated. HBQ-Z209 is easy to operate and the work strength of the operators is reduced while the product quality and production efficiency are increased. Extra units and functions can be added according to the demand of customers, such as adding more inserting station and function of inserting two different plugs in the same housing and adding defectives detecting modules to meet various process demands of automotive and wire harness.

特性 Feature

- 机身采用铝型材框架，以有清洁感的工业灰色为基调，整体结构简洁大方；
 - 盲堵采用自动震动送料，自动插入，提高生产效率；
 - 护套采用托盘储料，降低劳动强度；
 - 电缸驱动系统精确定位盲堵孔位；
 - 布局人性化，操作方便舒适。
- Aluminum profile frame and clear gray color for simple and generous structure;
 - Automatic vibrating feed of plugs and automatic insertion to increasing production efficiency;
 - Tray type storage of terminal housings to reduce the work strength;
 - Electric actuator drive system for fine position of plug holes;
 - Humanize layout and easy operation.

技术参数 Specifications

型号	Type	HBQ-Z209	气源	Air Supply	0.5~0.7MPa
功能	Function	护套托盘储料 Tray type storage of terminal plug	空气消耗	Air consumption	3.5m ³ /h
		盲堵自动送料 Automatic feeding	环境温度	Temperature	0~+40℃
		盲堵自动插入 Automatic insertion	电源	Power Supply	AC220V/50Hz
		双插入工站 (选配) Dual-plug-inserting work stations(Optional)	功率	Power	600W(max)
		视觉检测 (选配) Visual inspection(Optional)	主机尺寸	Dimensions	L875×W805×H1600mm
			主机重量	Weight	400kg
