

## 产品介绍 Introduction

WHCA 压接模具主要用于管式航空端子、开式单尾部端子的压接。

WHCA crimping applicator is mainly used for tubular air terminals and open single tail terminals.

## 特性 Features

- 适用于管式航空端子、开式单尾部端子的压接；

Used for tubular air terminals and open single tail terminals;

- 模块化结构，压接组件可做为单独组件订购，让成本进一步的压缩；

The modular structure allows crimping components to be ordered as separate components, reducing costs even further.

- 每个零件都有自己的唯一标识。

Laser labeling for each part-unique ID

## 技术参数 Specifications

适用于海昌 H15A 及 WDT 的 UP65、UP66 液压端子压接机

Suitable for Hacint H15A and WDT UP65, UP66 hydraulic terminal crimping machine

## 备注： Notes：

WHCA 模具根据设备匹配不同模具。

WHCA applicator matches different applicators according to equipment.
