

HBQ-331 胶带缠绕机

产品简介

HBQ-331 胶带缠绕机主要应用于线束缠胶带，可对线束进行全缠、花缠处理。此产品采用锂电池供电，机身小巧、轻便。

产品特征

●功能强大

采用无刷电机，性能稳定、寿命长。  
三挡速度调节，适用不同需求，对操作人员友好。  
单次连续使用可达 5h（空载连续测试）。

●外观精致

手持部分采用人体工程设计。  
机身两处吊装点，可在不同位置悬挂使用，减轻工作强度。

产品参数

型号	HBQ-331
线径范围	5~20mm
缠绕速度	120/240/360r/min
胶带外径	最大 95mm
胶带内径	38mm/定制（需提供胶带）
胶带宽度	9~19mm
功率	60W
电源	220V/50Hz（电池充电电压） DC21V（本机电池供电）
外形尺寸	L120×W120×H400mm
重量	1.6kg（含电池）

## HBQ-331 Tape Wrapping Machine

### INTRODUCTION

HBQ-331 Tape Wrapping Machine is mainly applied to tape wrapping wire harnesses. It can carry out full wrapping and spiral wrapping treatments on wire harnesses. This product is powered by a lithium-ion battery, featuring a compact and lightweight body.

### FEATURES

#### ●Powerful functions

It adopts a brushless motor, featuring stable performance and long service life.

With three-speed adjustment, it can meet different needs and is user-friendly to operators.

It can be used continuously for up to 5 hours in a single use (continuous no-load test).

#### ●Exquisite appearance

The handheld part is designed with ergonomics.

There are two lifting points on the machine body, allowing it to be hung for use, which reduces the work intensity.

### SPECIFICATIONS

Type	HBQ-331
Wire Cross Sections	5~20mm
Wrapping Speed	120/240/360r/min
Tape Outer Diameter	≤95mm
Tape Inner Diameter	38mm/Customized (Tape needs to be provided)
Tape Width	9~19mm
Power	60W
Power Supply	220V/50Hz (Charging Voltage) DC21V (Battery Power Supply)
Overall Dimensions	L120×W120×H400mm
Weight	1.6kg(Including battery)
